No bank licences for large corporates yet

Promoters can now retain 26% shareholding in banks

FE BUREAU
New Delhi, November 26

RESERVE BANK OF INDIA (RBI) has refrained from permitting corporate ownership of banks, putting on hold a working group recommendation that said large corporate and industrial houses may be allowed to promote banks post amendments to the Banking Regulations Act, 1949. The central bank has also not accepted a recommendation to allow well-run, large NBFCs, including those owned by a corporate house, to become banks. Both suggestions, it said, on Friday, are "under examination".

However, RBI has allowed promoters to retain a 26% shareholding in banks, higher than the current cap of 15%, bringing relief to bankers like Kotak Mahindra Bank's Uday Kotak. The 26% is in line with the ceiling on the voting rights of a shareholder and in keeping with the current FDI policy. The PJ Nayak Committee

- Cap on promoters' stake, after 15 years, raised to 26% of the paid-up voting equity share capital, from 15%
- Post five-year lock-in, promoters can choose to lower holdings to below 26%
- Promoter stake during five-year initial lock-in remains at minimum 40%
- Cap of 15%, of the paid-up voting equity shares, for non-promoter shareholders — all categories of FIs, supranational institutions, PSUs, govt
- Cap of 10% for non-promoter shareholders — natural persons and non-FIs
- NOFHC mandatory only where individual promoters, promoting and converting entities have other group entities; however, promoters/promoting entities must be eligible to set up a universal bank or an SFB
- Minimum initial capital requirements for new bank licences raised to ₹1,000 crore for universal bank, ₹300 crore for an SFB

had in 2014 recommended a promoter holding of 25%, on the grounds that low promoter shareholding could make banks vulnerable by

weakening the alignment between the management and shareholders. **Continued on Page 2**

India tightens screening for new variant, set to resume overseas flights

NEHAARORA
New Delhi, November 26

INDIA SAID ON Friday it will resume international passenger flights from mid-December with Covid-19 linked curbs for "at risk" countries, and ordered tightened screening at borders as fears over a new coronavirus variant spread globally.

The Union health ministry said reports of mutations in the variant, identified as B.1.1.529, had "serious public health implications", and asked states to adopt rigorous screening and testing for all passengers from South Africa and other "at risk" countries.

"This variant is reported to have a significantly high number of mutations, and thus, has serious public health implications for the country in view of recently relaxed visa curbs and opening up of international travel", health secretary Rajesh Bhushan said in a letter to states.

Markets, rupee plunge as new Covid variant spooks investors

Global markets fall as countries begin to impose travel curbs

AGENCIES
Mumbai, November 26

SENSEX NOSEDIVED 1,688 POINTS while the Nifty slumped below the 17,100-level on Friday as a new and potentially vaccine-resistant coronavirus variant sent shockwaves through global markets.

Markets globally were lower after scientists said the new variant detected in South Africa has an unusual combination of mutations, may be able to evade immune responses and could be more transmissible. Countries like Britain and Japan have already imposed travel restrictions, raising the spectre of a fresh wave of lockdowns.

Sensex plummeted 1,687.94 points or 2.87% to close at 57,107.15 following an across-the-board selloff. Similarly, the NSE Nifty plunged 509.80 points or 2.91% to 17,026.45.

Currency markets, too, were not spared, with the rupee sinking 37 paise versus the dollar, in tandem with other emerging market currencies. The losses also pushed the Nifty 50 to its worst weekly performance since late January, with both the main indexes losing over 4% this week to move further away from a record high struck in October. **Continued on Page 2**

ADITYA BIRLA GROUP chairman Kumar Mangalam Birla on Friday said the telecom business has been a "tough one" for the diversified conglomerate and it could have done better on "several factors".

Birla also said one of the biggest regrets in his life was to lose out on Hindustan Zinc, the country's largest zinc-lead miner. Currently, the company is a subsidiary of Anil Agarwal-led Vedanta Group, which acquired it when the government divested its majority stake way back in 2002-03.

China looks to set up digital asset bourse in virtual yuan push

BLOOMBERG
November 26

CHINA IS CONSIDERING setting up a digital asset exchange in Beijing as officials push to promote usage of the digital yuan and crack down on cryptocurrencies.

Beijing will explore the possibility of establishing a bourse for digital assets trading, as part of broader efforts to boost financial services in the capi-

tal, according to guidelines issued by the State Council.

The cabinet called for faster trials of the digital yuan and urged big banks to set up e-CNY operation firms. The statement provided no further details on the planned digital asset exchange. China

has been in process of creating a virtual version of its legal tender since 2014 in an effort to cope with an increasingly digitised economy as well as to fend off potential threats from virtual currencies such as Bitcoin. It banned crypto-exchanges in 2017 and stepped up scrutiny this year to

ban crypto mining and all related transactions, in tandem with campaigns to promote the digital yuan.

It kick-started trials in multiple cities last year to promote the use of the e-CNY among consumers and merchants though initial reception had been lukewarm. A broader roll-out of the digital currency is expected in Beijing when it hosts the Winter Olympics in February. **Continued on Page 2**

PRIVATISATION ROAD

New Bill may provide for 26% minimum govt stake in PSBs

Analysts fear the move may not go down well with potential suitors

FE BUREAU New Delhi, November 26

THE BANKING LAWS (Amendment) Bill, 2021, which will be introduced in the Winter Session of Parliament starting November 29, will likely propose that the minimum government holding in public sector banks (PSBs) be trimmed to 26% from 51%, an official source said.

The move is aimed at facilitating the privatisation of two PSBs, in sync with the announcement in the Budget for 2021-22. On Wednesday, shares of Indian Overseas Bank (IOB) and Central Bank of India rallied, amid speculations that the government had made a decision to privatise these two lenders, as suggested by the Niti Aayog. However, the Centre is yet to formally name the privatisation candidates.

■ Draft Bill provides for the lower shareholding

■ Final call to be taken by Cabinet before the Bill's introduction in Parliament

■ If investors not keen unless govt sells entire stake, full privatisation also on cards

While the draft Bill provides for the lower shareholding, a final call will be taken by the Cabinet, which will clear the Bill before it can be introduced in Parliament, added the source. "However" If it's found, after consultations with investors, that they are not interested unless the government sells its entire stake in the select PSBs, the government is open to consider complete privatisation as well. But initially, it may opt for retaining a 26% stake," said another source who is privy to talks.

Analysts fear any government proposal to retain 26% stake in the PSBs may not go

down well with potential suitors. For instance, the government was forced to put its entire stake in state-run Air India on the block after its initial plan to hold at least 26% in the national carrier didn't elicit any response from investors.

The new Bill proposes to "effect amendments in Banking Companies (Acquisition and Transfer of Undertakings) Acts, 1970 and 1980 and incidental amendments to Banking Regulation Act, 1949, in the context of Union Budget announcement 2021 regarding privatisation of two public sector banks", according to the

list of legislative business for the winter session of Parliament.

These laws had led to the nationalisation of banks, so relevant provisions of these laws have to be changed to pave the way for the privatisation.

Presenting the Budget for 2021-22, finance minister Nirmala Sitharaman had announced the privatisation of two PSBs and one general insurer, as part of the Centre's disinvestment plan to rake in ₹1.75 lakh crore.

Already, Parliament had in its last session cleared a Bill to facilitate the privatisation of state-run general insurance companies by removing the requirement of the central government to hold at least 51% stake in an insurer.

Niti Aayog has already recommended the sell-off of IOB and Central Bank of India to the core group of secretaries on disinvestment, headed by the Cabinet Secretary. This core group will send its recommendation to the alternative mechanism (AM), headed by the finance minister, for its approval. Finally, it will be cleared by the Cabinet.

Govt proposes framework for cross-border insolvency; seeks comments till Dec 15

THE GOVERNMENT IS preparing to come out with a cross-border insolvency resolution framework based on the UNCITRAL model law and is proposed to be made applicable for both corporate debtors as well as personal guarantors to such debtors. The corporate affairs ministry, which is implementing the Insolvency and Bankruptcy Code (IBC), has sought comments on the draft framework till December 15.

Broadly, cross-border insolvency process pertains to those debtors having assets and creditors overseas. According to the ministry, the need for having robust institutional arrangements to deal with cross-border insolvency issues has gained momentum in various jurisdictions, particularly under the aegis of UNCITRAL Model Law, during the last few decades. The UNCITRAL Model Law on Cross-Border Insolvency, 1997, is the most widely accepted legal framework to deal with cross-border insolvency issues.

Putin to visit India on Dec 6 for annual summit with Modi

PRESS TRUST OF INDIA New Delhi, November 26

RUSSIAN PRESIDENT VLADIMIR Putin will visit India on December 6 to hold annual summit with Prime Minister Narendra Modi during which they will review the status of bilateral ties and discuss regional, multilateral and international issues of mutual interest, the ministry of external affairs (MEA) said on Friday. The MEA also announced that the first '2+2' foreign and defence ministerial dialogue between India and Russia will be held in here on December 6 as well.

The Modi-Putin summit is expected to produce specific outcomes in further expanding ties in areas of defence, trade and energy, officials said. It is learnt that the two sides are going to firm up a number of agreements in the areas of defence, trade and investment, and science and technology at the summit.

"President of the Russian Federation Vladimir Putin will pay an official visit to New Delhi on December 6 for the

21st India-Russia annual summit with Prime Minister Narendra Modi," MEA spokesperson Arindam Bagchi said at a media briefing.

It will be the first in-person meeting between the two leaders after their talks on the sidelines of the BRICS summit in Brasilia in November 2019. There have been six telephonic conversations between the two leaders since November 2019, to date apart from virtual meetings for multilateral summits.

The last India-Russia annual summit was held in September 2019 during the visit of Modi to Vladivostok. "The leaders will review the state and prospects of bilateral relations and discuss ways to further strengthen the strategic partnership between the two countries," Bagchi said.

"Some factors that we did not do right were within our control. I think every situation, every business comes with its own set of learning," he pointed out.

Vodafone Idea, along with Bharti Airtel, has recently opted for the four-year moratorium offered by the government on payment of adjusted gross revenue (AGR) and spectrum dues. During the July-September quarter, the company was able to narrow its net loss to ₹7,132 crore from ₹7,319 crore in the preceding quarter.

The company has incurred a loss of ₹14,451 crore for the half year ended September 30, and its net worth stands at a negative ₹52,685 crore. The total debt of the group stands at ₹1.9 lakh crore as on September 30, while an amount of ₹10,022 crore has been classified from non-current borrowings to current maturities of long-term debt for not meeting certain covenant clauses under the financial agreements.

India is the world's third-largest oil consumer and has been severely impacted by the relentless rise in international oil prices. India to push for vaccine patent waiver at WTO

MANOJ KUMAR
New Delhi, November 26

INDIA WILL LEAD demands for an intellectual property rights waiver for Covid-19 vaccines and supplies at a World Trade Organization (WTO) meeting next week, two government officials said.

A year after India and South Africa introduced a proposal to temporarily waive intellectual property rights on Covid-19 vaccines and therapies at the WTO, negotiations are deadlocked in the face of opposition from some developed countries.

Shyamal Misra, a senior official at the ministry of commerce, said India would not just be speaking for itself at the WTO ministerial conference in Geneva starting on November 30, but for other developing countries with which it is working closely.

"We expect that the interests of developing countries are not compromised," Misra

said at an event late on Thursday to discuss India's strategy.

India has alleged that developed countries, led by the European Union, Switzerland and the United Kingdom, were "preventing access to vaccines for poor countries," leading to loss of lives.

Switzerland's ambassador to the WTO Didier Chambovey said on Thursday the country was open to compromise, but is opposed to a full waiver.

WTO members at a meeting of the Council for Trade-Related Aspects of Intellectual Property Rights (TRIPS) last week, agreed to continue ne-

gotiations until the start of the ministerial conference to seek a solution.

Another senior government official, who is accompanying commerce minister Piyush Goyal at the meeting, told Reuters on Friday that India would push for a fair and equitable deal.

Developed countries need to understand that for the benefit of a few pharmaceutical companies they cannot put the lives of people in developing countries at risk, he said.

"All eyes are looking for a positive outcome," Sachin Chaturvedi, a government adviser and head of Delhi-based think-tank Research and Information System for Developing Countries, said.

Citing Prime Minister Narendra Modi's meeting with G20 leaders last month, he said India would be producing over five billion doses of Covid-19 vaccines for the country and the world by the end of 2022. — REUTERS

Centre to invest ₹64k cr in health sector: Mandviya

PRESS TRUST OF INDIA
Itanagar, November 26

UNION HEALTH MINISTER Mankush Mandviya said Friday the Centre will invest about ₹64,000 crore in creating health infrastructure in the country over the next five years.

The minister, who was on a day-long tour to Tawang district in Arunachal Pradesh, was interacting with health officials at Khandro Drowa Zangmo District Hospital. He said the central government is

"We will work with Ayushman Bharat digital health mission, which will enable us to know the history of a patient and can provide quality health services," Mandviya said

working to provide health security to all through various welfare schemes, an official statement released here said. "We will work with Ayushman Bharat digital health mission, which will enable us to

know the history of a patient and can provide quality health services," he said.

Mandviya also lauded the Pema Khandu government for taking various health initiatives in the state and assured all help and support from the Centre.

State health principal secretary Dr Shaarut Chauhan presented the overall health scenario of the state and apprised the Union minister on the Covid management and vaccination status in Arunachal Pradesh, the report said.

President of the Arunachal chapter of Indian Medical Association (IMA), Dr Lobsang Tsetim, requested the Centre to take over the Tomo Riba Institute of Health and Medical Sciences at Nahrlagun for its future sustainability, quality education and services.

Dr Tsetim also underlined the urgent need to set up a super specialty hospital in the state besides reform of all existing primary health centres. Earlier, Mandviya interacted with the patients at the district hospital.

SC: Can't cast doubt on vaccination programme, cannot afford price of laxity

PRESS TRUST OF INDIA
New Delhi, November 26

THE SUPREME COURT on Friday said it cannot just cast doubts on the Covid-19 vaccination programme at this stage and cannot afford the price of laxity of not vaccinating people.

The top court said lakhs and crores of people have taken vaccines, the WHO has approved them, and the whole world is getting vaccinated.

A bench of Justices DY Chandrachud and AS Bopanna asked the petitioners Ajay Kumar Gupta and others to serve the copy of the petition to the

solicitor general, and sought his response. The bench said, "We do have a system, guidelines in place for monitoring any adverse event following immunisation. There will always be dissenters, but policy cannot be fashioned as per them."

"We have to see the good of the nation as a whole. The world has witnessed an unprecedented pandemic, like of which we have not seen in our lifetime. We cannot just cast doubt on the vaccination programme at this crucial stage. It is of the highest national importance

that people get vaccinated. We cannot afford the price of laxity of not vaccinating the people," it said.

The plea filed by Gupta and others alleged that thousands of deaths have taken place due to 'adverse events' following immunisation and sought direction to the Centre to make vaccine administration voluntary, prior informed consent of person going for immunisation, and direction to the Centre to seek a report from European countries where Covishield was discontinued or restricted.

Despite Mamata's demand, raw jute price cap necessary, says commissioner's office

INDRONIL ROYCHOWDHURY
Kolkata, November 26

EVEN AS WEST Bengal Chief Minister Mamata Banerjee demanded removal of the price cap on raw jute in the open market, the jute commissioner's office on Friday said the cap was necessary because of the price rigging in the open market.

Banerjee, in a meeting with Prime Minister Narendra Modi, had sought the removal of the price cap imposed by the jute commissioner last month, since the current market-driven prices favour farmers. According to Banerjee, the Prime Minister assured her to look into the matter.

Deputy jute commissioner Koushik Chakraborty told FE there have been no orders from the Centre on removing the price cap of ₹6,500 a quintal.

Although the Indian Jute

Deputy jute commissioner Koushik Chakraborty said prices needed be kept stable since the costing of sacks is determined on the basis of three months' moving average of the market price of raw jute

Manufacturers Association (IJMA) is in favour of removing the price cap, Chakraborty said prices needed be kept stable since the costing of sacks is determined on the basis of three months' moving average of the market price of raw jute. The Centre provides 100% subsidy to procure jute bags, and price per sack works out to around ₹80 at present against ₹58-60 before the pandemic.

He said there is no reason for raw jute prices to increase, since production during the current season has been 90 lakh bales as against 55 lakh

bales in the last jute season. The Commission for Agricultural Costs and Prices has estimated production cost at ₹2,832 a quintal and provided an MSP of ₹4,500 a quintal. "Open market prices at ₹6,500 a quintal are hugely profitable, and this is where we brought in the cap," Chakraborty said.

Landed raw jute price in Kolkata during August-September was ₹5,800 a quintal and the upward movement is alleged to be because of price rigging by a section of non-registered stockists.

An IJMA member on the condition of anonymity, said despite the price cap, raw jute is being sold at ₹7,300-7,500 a quintal, but millers will get sack prices on the basis of the capped price.</

DHEERAJ HINDUJA NEW EXECUTIVE CHAIRMAN

Ashok Leyland MD and CEO Vipin Sondhi resigns

Sondhi's exit comes at a time when the Chennai-headquartered CV major is making giant strides in alternate fuel powertrains

FE BUREAU
Chennai, November 26

VIPIN SONDHI, MD & CEO of Hinduja flagship commercial vehicle major Ashok Leyland (ALL) has decided to move on to take care of his personal and family responsibilities.

ALL on Friday announced that Sondhi has expressed his intention to devote more time to take care of certain personal and family commitments in the post-Covid pandemic situation, that requires his extended presence in New Delhi and consequently step down as MD and CEO with effect from December 31, 2021.

Respecting his personal reasons, the board has extended its support and agreed to his decision to move on. Sondhi will fully support and facilitate a smooth management transition, ALL said in a statement.

Vipin Sondhi

To assist in business continuity and a seamless transition, the board has requested Dheeraj Hinduja to step in as executive chairman with immediate effect. The board will meet soon to decide on the further course of action for identifying the next CEO and MD.

Dheeraj Hinduja, chairman, ALL, said: "I would like to place on record Vipin's significant contribution in Ashok Leyland navigating the disruption caused by the Covid-19 pandemic and seeding firm actions to pursue our vision. We wish Vipin the very best in all his future

endeavors. We see a revival in domestic and international markets. I am confident that our new products and soon to be introduced alternate propulsion variants will trigger growth in volume and market share shortly."

Sondhi joined the Hinduja group from JCB in November 2019 and was appointed as MD & CEO in December 2019.

Sondhi's exit comes at a time when the Chennai-headquartered CV major is making giant strides in alternate fuel powertrains. The company had recently revealed its plans to launch trucks in CNG and LNG version soon to establish formidable presence in the alternate fuel vehicles space. ALL had also announced that it is working on hydrogen-powered powertrains.

Vipin Sondhi, CEO & MD, ALL, said, "My decision is purely a personal one as I need to take care of my personal and family responsibilities, which have become a top priority. Working with the Hinduja family and the leadership team at Ashok Leyland has been an enriching experience. That we have been able to meet all the challenges head-on despite the global pandemic and continue on our growth path has been very satisfying."

Dr Reddy's to seek DCGI nod for Sputnik Light vaccine soon

FE BUREAU
Pune, November 26

DR REDDY'S LABORATORIES is in the midst of clinical trials for the Russian Sputnik Light Covid-19 vaccine in India and is soon expected to seek regulatory nod from Drugs Controller General of India (DCGI). Dr Reddy's has partnered with Russian, RDIF (Russian Direct Investment Fund) for the Sputnik vaccine supplies in India. Sputnik Light vaccine is based on human adenovirus serotype 26, which is the first component of the Sputnik V vaccine.

Kirill Dmitriev, CEO of RDIF has said that they were expecting to launch the Sputnik Light in India in the next couple of weeks. Sputnik Light will be a one shot vaccine unlike the earlier two dose Sputnik V vaccine launched earlier in the country. Shortage of the second component of the Sputnik vaccine had led to low off-take of the Sputnik doses in India but these manufacturing issues had been resolved.

Dr Reddy's spokesperson said Sputnik would continue to be relevant and meaningful in the India's Covid-19 vaccination programme. The company sees the single-dose Sputnik Light vaccine as a standalone vaccine and booster dose, while Sputnik V is for the paediatric population. With the government allowing exports of vaccines, Dr Reddy's is also in discussion to take Sputnik to other countries mostly in the Asia-Pacific region and in certain countries of Africa, Latin America and Central America.

RDIF has another tie-up with Serum Institute of India to make the Sputnik Light vaccines. SII has started manufacturing these vaccines at its Pune facility.

Vodafone Idea demonstrates around 4 Gbps 5G data speed

FE BUREAU
Pune, November 26

VODAFONE IDEA (VI) on Friday demonstrated a download speed of 4,100 Mbps and upload speed of 217 Mbps during a 5G trial in Pune. The telecom operator is conducting 5G trials on government allocated 5G spectrum in Pune, Maharashtra and Gandhinagar, Gujarat. The spectrum was allocated for six months from May 2021 till November 2021 and has been extended till May next year or till 5G auction results. VI is now expanding the scope of the 5G trials and was looking at working with more technology partners, customers and startups.

VI was getting 5G ready and would be looking at participating in the county's 5G plans and as part of the journey, they were working with all the ecosystem players, P Balaji, chief regulatory and corporate affairs officer, VI, said. The company did not share investments made so far or future 5G investment plans.

VI has been allocated 26 GHz and 3.5 GHz spectrum in the mmWave band by the DoT for 5G network trials and use cases. VI has achieved peak speeds in excess of 1.5 Gbps on 3.5 GHz, more than 4.2 Gbps on 26 GHz and up to 9.8 Gbps on backhaul spectrum of E-bands during the trials.

VI chief technology officer, Jagbir Singh, said the company was also working with local 5G technology partners

VI has been allocated 26 GHz and 3.5 GHz spectrum in the mmWave band by the DoT for 5G network trials and use cases

and as and when the products were ready they would be carrying out trials and deploying it. Around 30-35% of the VI sites have been fiberized and it is being increased in urban areas and for 5G it would be a combination of fibre and E band, Singh said.

VI showcased a range of 5G use cases with technology partners Ericsson and Nokia, L&T Smart World & Communication, Athonet and start-ups Vizbee Robotics and Tweek Labs. VI worked with the Ericsson 5G network in Pune and with Nokia 5G network in Gandhinagar to show the possibilities that 5G unlocked for the country.

The company saw opportunities for 5G in automotive, IoT related applications for drones, connected health care, industry 4.0, education, smart agriculture, gaming amongst others.

For the 5G trial network set up in Pune, VI deployed Ericsson radios and Ericsson dual mode core based on cloud native technology comprising of 5G SA, 5G NSA & LTE packet core functions. All use cases demonstrated in Pune had been developed over Ericsson's 5G technology solutions.

Vedanta promoters pledge shares to raise ₹6,000 crore

PRESS TRUST OF INDIA
New Delhi, November 26

HOLDING COMPANIES OF Vedanta have raised \$800 million (about ₹6,000 crore) by pledging shares in the company, according to a stock exchange filing.

Promoter group firms pledged 242.26 crore or 65.18% shareholding in Vedanta in three facility agreements to raise the money, a Vedanta's filing showed.

In the first financing deal, Twin Star Holdings entered into an agreement with Standard Chartered Bank, London to avail of an aggregate amount of \$400 million.

In the second, Vedanta Netherlands Investments secured \$150 million from Standard Chartered Bank, London. Vedanta Resources in the third facility raised \$250 million from Standard Chartered Bank, Hong Kong.

"The borrowers and guarantors in the aforesaid Facility Agreements are part of the promoter and promoter group," Vedanta said in the filing.

As part of the pledge, the promoter group entities are not permitted to create any encumbrance over any assets held by them unless certain conditions are fulfilled.

Also, Vedanta Resources and its subsidiaries are required to retain control over Vedanta or own more than 50% of the issued equity share capital.

Madison Pacific Trust, in a separate statement, said Vedanta Netherlands Investment and Twinstar Holdings have acquired 1.71% and 2.80% of the equity share capital of Vedanta.

Earlier this week, they were looking to purchase up to 17 crore equity shares of

Vedanta's Sesa Goa iron ore biz pledges to become carbon neutral by 2050

VEDANTA ON FRIDAY said its Sesa Goa iron ore business is looking to achieve carbon net neutrality by 2050. In line with the country's larger vision of net zero carbon economy, the company has devised a comprehensive plan to achieve this goal, the company said in a statement. To reduce greenhouse gases (GHG) emissions, Vedanta's Sesa Goa iron ore business has implemented several projects such as pulverized coal injection (PCI), waste heat recovery power plants, massive plantation drives in nearby communities, development of green belts within operation sites and refurbishment of blast furnaces among others, the company said. —PTI

Vedanta at an indicative price of ₹350 per share, valued at ₹5,950 crore.

This comes after the Anil Agarwal-led mining company on November 17 announced that it is considering plans for a complete overhaul of its corporate structure.

The firm is evaluating all options including demergers, spin-offs and strategic partnerships, and is looking at listing its aluminium, iron and steel, and oil and gas verticals as separate entities.

A committee of directors has been constituted to evaluate and recommend such options and alternatives to the board.

Serum Institute resumes Covid-19 vaccine exports

FE BUREAU
Pune, November 26

SERUM INSTITUTE OF India (SII) on Friday resumed exports to the international vaccine sharing programme COVAX.

The first batches of its Covishield Covid-19 vaccine left the SII manufacturing facility in Pune for distribution to low and middle income countries via the COVAX mechanism.

SII's supply of doses via COVAX is expected to increase substantially in the first quarter of 2022.

SII also surpassed the 1.25 billion vaccine doses production at its Pune facility. The company said resumption of exports was linked to SII surpassing its original target to produce one billion doses of Covishield by the end of this year. SII had reached this milestone ahead of time via rapid expansion of production capacity at its site in Pune, the company said.

SII will bring into production other vaccines under licence, which will include Covovax from US-based company Novavax that received its first Emergency Use Authorisations (EUAs) from regulators in Indonesia and the Philippines.

Regulatory reviews are pending for Covovax in India and with the World Health Organization.

Adar Poonawalla, CEO of Serum Institute of India, said, "It's a huge moment to begin exports again, for us, our partners at COVAX and the low- and middle-income countries we support. "The world has largely depended on

the low-cost, high-quality pharmaceuticals and vaccines that India has traditionally exported, so we are delighted to support the global vaccination effort once more."

AstraZeneca, the Bill & Melinda Gates Foundation, Gavi, UNICEF and the WHO had shown confidence in SII's ability to keep on track and they were all hopeful of meeting WHO's target to vaccinate 70% of the world's population by the middle of next year, Poonawalla said.

Dr Seth Berkley, CEO of Gavi, the Vaccine Alliance, which leads the COVAX Facility said the resumption of supplies from Serum Institute was an important development for COVAX as it entered its busiest period yet for shipping vaccines to participating economies.

COVAX's portfolio is now much more diversified than it was earlier this year and Covishield remains an important product, Berkley said.

Hero MotoCorp appoints former SBI chairman Rajnish Kumar to its board

FE BUREAU
Chennai, November 26

TWO-WHEELER MAJOR Hero MotoCorp on Friday announced further strengthening of its leadership by appointing experts on its board of directors. Rajnish Kumar — former chairman of State Bank of India (SBI) — has been appointed as an independent non-executive director on the board of the company.

Kumar completed his three-year term as chairman of SBI in October 2020. He is credited with steering the bank successfully through very challenging times and adopting key technology transformations. During his tenure, the bank developed YONO, a digital platform, which established SBI as a global leader in the adoption of technology and innovation, said a company release.

Hero MotoCorp also appointed Vasudha Dinodia, a next-gen entrepreneur credited with founding the boutique chocolate start-up Choko La in 2005 — as a non-executive director on the board of the company. Dinodia has been an astute marketing strategist and third-generation entrepreneur from the eminent Munjal family. Dinodia has scaled Choko La to be a globally recognised, premier chocolate brand with its presence across the US, Europe and Asia. Camille Tang — a well-known name

Ex-SBI chairman Rajnish Kumar

in the global technology landscape — was recently appointed as an Independent non-executive director on the board of the company. Tang brings with her several decades of rich and diverse global experience in varied sectors such as finance, retail, technology and Artificial Intelligence (AI). She is currently an advisor on software and white label SaaS startups in Canada and the US.

With these current appointments, Hero MotoCorp now has 11 board members, of which 25% are women, thereby clearly exhibiting the company's focus on diversity and inclusion, which will significantly enhance the company's performance, the statement said.

Godrej Properties buys 16-acre land in Bengaluru to develop 1.5 mn sq ft housing project

PRESS TRUST OF INDIA
New Delhi, November 26

REALTY FIRM GODREJ Properties on Friday said it has bought a 16-acre land parcel in Bengaluru to develop primarily residential properties, as part of its strategy to expand business in major cities.

The company did not disclose the deal value as well as the name of the seller.

In a regulatory filing, Godrej Properties, which is one of the country's leading real estate developers, informed that it has purchased a land measuring approximately 16 acres at a strategically located and fastest developing micro-market of Sarjapur to develop a mid-income project.

The project is estimated to have a developable potential of about 1.5 million square feet saleable area, comprising primarily residential apartments of various configurations.

Sarjapur is one of the most preferred residential locations in Bengaluru and also has excellent connectivity to the IT/ITES belt at Bellandur on Outer Ring Road and several key hubs of the city.

Mohit Malhotra, MD & CEO, Godrej Properties, said, "Infrastructure development in Bengaluru has increased demand for housing, especially from the mid and upper-mid income group."

Sarjapur is an important micro market for the company, he added.

The project is estimated to have a developable potential of about 1.5 million square feet saleable area, comprising primarily residential apartments of various configurations

"This will further expand our presence in Bengaluru and complement our strategy of deepening our presence in key micro markets across India's leading cities," Malhotra said.

Godrej Properties' sales bookings rose 18 per cent to Rs 3,072 crore during the April-September 2021 period, driven by higher demand for its residential properties in Delhi-NCR.

The sales bookings had stood at ₹2,605 crore in the corresponding period of the last financial year.

Mumbai-based Godrej Properties is part of the business conglomerate Godrej Group.

Kirloskar Ferrous Ind to buy 51.25% stake in Indian Seamless Metal Tubes

FE BUREAU
Pune, November 26

CASTINGS AND PIG iron manufacturer, Kirloskar Ferrous Industries, is acquiring a majority stake (51.25%) in Indian Seamless Metal Tubes (ISMT) through a preferential allotment and sole control over ISMT.

Kirloskar Ferrous said on Friday that it will subscribe to shares for an aggregate consideration of Rs 476.63 Crores at Rs 30.95 per share by the way of preferential allotment. The company has also commenced an open offer for acquiring up to 25.05% of the resultant voting capital of ISMT.

ISMT is the largest integrated specialised seamless tube manufacturer in India. It manufactures specialised seamless tubes in the range of 6-273 mm diameter. The company has an alloy steel plant in India that produces a range of alloy steels from 20 to 225 mm diameter.

RV Gumaste, managing director, KFII, said with this acquisition they would be entering the seamless pipes market and widening their product portfolio. "This acquisition brings us an opportunity to integrate iron ore to seamless tubes at a consolidated level. Ongoing projects along with this acquisition will help us bring cost efficiencies in the value chain. We believe these synergies will put us on an accelerated growth path in coming years," Gumaste said.

SIXTH EDITION: HOW CAN WE IMPROVE HOUSING FOR MIGRANTS?

AMITA BHIDE
PROFESSOR, TATA INSTITUTE OF SOCIAL SCIENCES

We've equated housing to permanent housing, ownership housing... We've not talked about migration. There is policy amnesia when it comes to thinking about (housing for) migrants

GAUTAM BHAN
ASSOCIATE DEAN, INDIAN INSTITUTE OF HUMAN SETTLEMENTS

You can't answer a housing question in a structurally unequal economy where wages are stagnant. There is no market and no supply solution that will do enough

MANIKANDAN KP
INSTITUTION BUILDER, INDIAN HOUSING FEDERATION

What we should realise is that we are also part of the problem and we have created this problem. It is our responsibility to find a solution

SHRAYANA BHATTACHARYA
SENIOR SOCIAL PROTECTION ECONOMIST, WORLD BANK

The focus in India is supply-side driven. Obviously, there are serious regulatory challenges. But if you look at Latin America, they've used a lot of demand-side incentives

'Boosting housing supply is necessary, not sufficient'

At the sixth edition of the eight-part IE Thinc Migration series, presented by *The Indian Express* with Omidyar Network India and moderated by deputy associate editor Udit Misra, panelists discussed solutions around complexities in regulation, migrant identity, credit worthiness and their role in providing housing for migrants

KEYNOTE SPEAKER
IQBAL SINGH CHAHAL,
COMMISSIONER, BRIHANMUMBAI MUNICIPAL CORPORATION (BMC)

MIGRANT LABOUR IS the backbone of the economy. They have a major role in developing the country. The government of Maharashtra had passed a very ambitious new housing policy way back in 2008, where the concept of rental housing was launched for the first time. The Mumbai Metropolitan Region Development Authority (MMRDA) was made a nodal agency for the entire MMR — these are eight-nine municipal corporations in and around

Mumbai, including MCGM (Municipal Corporation for Greater Mumbai), which houses almost 2.5 crore population and more than a million migrant population. And this rental housing would be provided to migrant labourers by charging some nominal monthly rent. Many developers came forward. So, right now, 42,000 tenements are under construction, which can house more than a lakh people. The 42,000 tenements, which have sanctions, include major real estate players like Tata, Dosti Group, Symphony and Adhiraaj. Anyone who comes to Mumbai, instead of staying in an unauthorised manner in slums, can be given this rented accommodation till he gets a proper place. Then we came up with this very ambitious policy of accommodation reservation under which we will build a sizeable amount of rental housing in the next five years. This is something which can help migrant labourers. I'm sure this idea can be replicated in many bigger cities of India, where the local municipal authority doesn't shell out anything at all except the construction cost of that building.

On understanding migrant behaviour

GAUTAM BHAN: Migrants are not unmarked bodies that come only into housing markets marked by demand and supply. They are a part of deep identity-linked movements that are shaped in certain ways. So why do we not learn from migrants on how they have produced that housing and what can we do to make this process easier, shorter and better. I think it's important that we don't start seeing migrants as helpless, invisible, unseen. They are hyper visible and deliberately invisibilised.

We can't build our way out of India's housing shortage. We will never, no matter how well-intentioned the government is, have the capacity to build at the scale we want. The largest stock of affordable housing in Indian cities has been built by people themselves, always in tension with law and planning. But the major work has to say: protect, regulate, recognise all the informal, inadequate rental housing that is all over our cities today. Begin to protect and improve that housing.

On jurisdiction and government responsibility

SHRAYANA BHATTACHARYA: The solution always seems to be a scheme and it's the same housing scheme. One of the key principles of the housing policy has to be decentralisation. It has to allow and empower local governments, not just at

SHILPA KUMAR
PARTNER, OMIKYAR NETWORK INDIA

Safe and secure housing is large and complex, but if addressed, it can truly build cities, which are more fundamental drivers of growth

the state level, I would contend, particularly if you look at the Mexican, Brazilian, or even Chinese examples, the way a lot of these problems are addressed is not by having a one-size-fits-all programme. In fact, creates regulation, which allows for a lot more dynamism.

On what's holding back the state government

MANIKANDAN: The simple answer to this is the greater level of difficulty in getting this solved. In rental housing, the user who's going to pay the rent is not going to participate in the process of getting the housing supplied directly or is not going to financially contribute to the process of getting the supply done.

On understanding if housing is only an urban problem

SHRAYANA: The first principle is extremely empowered municipal governments, not this same scheme, PMAI, which runs exactly the same way with the same benefit levels. The second is that the focus in India tends to be very supply-side driven. It's around land housing construction. Obviously, there are very serious and grave regulatory challenges around this. What

the government perhaps needs to do along with the employer is provide a basket of cash as well as insurance benefits. And the third would be just the capacity of the delivery system, not just an audit. If you're moving, then you should have a system of social protection that moves with you.

On solutions for a complex issue

BHIDE: We need to think of a continuum. I hope we will be able to create a few amenities for women migrants — a very vulnerable contingent, often not recognised at all.

There is a tripartite partnership, which can be created between the state, agencies and the employers. The employer's role in this is immense. On the other end of the continuum, we need to focus on how one can reduce the precarity of housing, because there are several housing conditions, which shouldn't be accepted. We need to look at informal housing and begin earlier. There is no issue of acquisition — the more you're able to upgrade the living conditions in the informal settlements, the conditions of rental housing would improve. I hope this will also contribute to creating a basic floor below which a quality of housing will not go. But if there are these kind of precarious housing conditions, one needs a velvet-glove approach, where the state comes in with regulatory policies but also comes in with facilitative policies. Our systems have macro details, but they don't have the micro knowledge of how things operate, of what things exist.

ITC to buy 16% stake in Mother Sparsh Baby Care for ₹20 cr

FE BUREAU
Kolkata, November 26

CIGARETTE-TO-FMCG-TO-HOTEL MAJOR ITC on Friday said it has agreed to acquire a 16% stake in Mother Sparsh Baby Care, an ayurvedic and natural personal care brand in the direct-to-consumer (D2C) space, for ₹20 crore.

The company entered into a share subscription agreement to acquire a 16% of the share capital of Mother Sparsh, a start-up, on a fully diluted basis, sub-

ject to completion of conditions precedent, and a shareholders' agreement in connection with such proposed acquisition, ITC said in a stock exchange filing.

This acquisition will enable access to the fast-growing D2C space in the 'personal care' category, which has been identified by the company as an area of interest, it added. This share acquisition of the start-up is expected to be completed in two tranches, within eight months from the date of execution of the agreements. The turnover of the

start-up, which has focus on mother and baby care segments, was ₹15.44 crore in the last fiscal. It was incorporated in February 2016.

ITC said, this investment is in line with the 'ITC Next' strategy articulated by chairman Sanjiv Puri that aims to build a future-ready organisation with a digital first culture. Commenting on the development, Sameer Satpathy, chief executive, personal

care products business, ITC, said, "We believe that this investment provides an exciting opportunity which is in alignment with our aspiration to have a significant play both in the naturals and ayurvedic segment as well as in the D2C channel. Mother Sparsh has, within a short span of time, evolved into an effective D2C brand with a range of innovative products and a lot of promise."

CONSULTATION PAPER

Sebi proposes to overhaul preferential allotment rules

PRESS TRUST OF INDIA
New Delhi, November 26

SEBI ON FRIDAY proposed relaxing pricing norms and lock-in requirements to make it easier for companies to raise funds through preferential allotment of shares. Sebi has also proposed allowing pledging of shares allotted to the promoter or promoter group under preferential issue during the lock-in period. Sebi has sought comments from public till December 11 on the proposals.

The pricing formula for allotment of shares under preferential issue should be the Volume-Weighted Average Price (VWAP) of weekly highs and lows for 60 trading days or 10 trading days, whichever is higher, the watchdog said in a consultation paper.

At present, the pricing formula in a preferential allotment is the VWAP of the last two weeks or the last 26 weeks, whichever is higher.

Moreover, any preferential issue allotment resulting in change in control should be done following a reasoned recommendation from a committee of independent directors, Sebi said.

The consultation paper also comes against the backdrop of PNB Housing Finance's proposed allotment of preference shares to US-based Carlyle Group and a clutch of other investors hitting a roadblock.

Sebi said representations have been received stating that the norm of 26-week period is very long for determining the price considering the market volatility. "Further, it is argued that there is a significant difference in the price determined on the basis of 26 weeks' average vis-a-vis 2 weeks' average. This may act as a deterrent for the promoters or existing willing

PRESS TRUST OF INDIA
Mumbai, November 26

THE RUPEE ON Friday plunged by 37 paise or 0.50% against the US dollar to close at a nearly month's low of 74.89 as investors turned cautious in view of massive sell-offs in domestic equities and worries over a new variant of Covid-19.

The rupee erased all of its gains in the month while suffering its worst weekly loss of 59 paise since October 8 due to month-end dollar demand and on anticipation that the US Fed will accelerate asset tapering and hike interest rates around mid-2022, analysts said.

The dollar index, which gauges the greenback's strength against a basket of six currencies, was trading down 0.34% at 96.44 but capped its losses on worries about newly discovered strain of coronavirus.

"Rupee erased all the gains of the month following risk-off moods after worries over a new variant of Covid-19 surges. Month-end dollar demand and unwinding of carry trade in global forex markets also weighed on rupee," Dilip Parmar, research analyst, HDFC Securities, said.

The rupee registered its biggest weekly fall after October 8, Parmar said.

A level above 75 will clear the way for 75.68, the weakest level of the year, Parmar

The rupee erased all of its gains in the month while suffering its worst weekly loss of 59 paise since October 8

adding that "now, the support has been shifted from 73.80 to 74.30".

"After a sharp appreciation of around 1.4% witnessed during the month, the rupee has given up all of the gains and is trading into the negative trajectory as the month draws to a close," Sugandha Sachdeva, vice president – commodity and currency research, Religare Broking.

The greenback has been on a strong run scaling to its highest levels for the year as markets are anticipating that the US Federal Reserve will accelerate asset tapering and hike interest rates around mid-2022, with inflation running at levels not seen in decades, Sachdeva said. Besides, concerns about the new highly-mutated coronavirus variant and lockdown fears in Europe are weighing on the sentiments.

Brent crude futures, the global oil benchmark, declined 5.50% to \$77.70 per barrel.

Foreign institutional investors were net sellers in the capital markets on Thursday as they offloaded shares worth ₹2,300.65 crore, according to exchange data.

Tarsons Products shares gain nearly 27% in debut trade

FE BUREAU
Mumbai, November 26

LIFE SCIENCES COMPANY Tarsons Products listed on the exchanges on Friday amid a sharp sell-off in the markets. The stock listed at ₹700 on the BSE – a premium of 5.79% against its issue price of ₹622. On the NSE, the stock got listed at ₹682, a premium of 3%. The stock then hit its upper circuit level of 20% in the afternoon deals and finally closed at ₹840 on the BSE, up 26.89%.

However, the listing was below expectations as analysts and investors expected a 20 to 25% surge in the stock amid a hefty grey market premium before the listing. A weak trend in the secondary markets due to the panic sell-off over worries of a new mutation of the coronavirus slightly impacted the listing of the company, said analysts. The BSE Sensex closed lower by 1,687.94 points or 2.87% at 57,107.15 on Friday.

The ₹1,023-crore IPO witnessed an overall subscription of 77.49 times between November 15 and 17, mainly backed by strong interest from institutional investors. The company also raised ₹306 crore from anchor investors ahead of its initial public offering.

The company intends to utilise the proceeds from the IPO for debt repayment, to

fund a part of capital expenditure for the new manufacturing facility in West Bengal, and for general corporate purposes. The company has also proposed to be debt-free post the IPO and to further boost its revenues. The firm is one of India's leading labware manufacturing companies, with a robust market share of 9% to 11%. Furthermore, the Indian labware market is expected to grow at a CAGR of 7.8% over FY20-25, and the plasticware sub-segment is expected to grow at a faster 11.6% CAGR over FY20-25, said brokerages.

India's forex kitty increases \$289m to \$640.40 billion

PRESS TRUST OF INDIA
Mumbai, November 26

INDIA'S FOREX EXCHANGE reserves increased by \$289 million to \$640.40 billion for the week ended November 19, the Reserve Bank said on Friday.

The overall reserves had declined by \$763 million to \$640.112 billion in the previous reporting week. They had touched a life time high of \$642.453 billion in the week ended September 3, 2021.

Foreign Currency Assets (FCA), a major component of the overall reserves, increased by \$225 million to \$575.712 billion, according to the Reserve Bank of India's (RBI's) weekly data.

Expressed in dollar terms, the FCAs include the effect of appreciation or depreciation of non-US units like the euro, pound and yen held in the foreign exchange reserves.

The value of the gold reserves continued their journey north, increasing by \$152 million to \$40.391 billion in the reporting week, the data showed.

The Special Drawing Rights (SDRs) with the International Monetary Fund (IMF) dipped by \$74 million to \$19.11 billion.

The country's reserve position with the IMF was down by \$13 million to \$5.188 billion in the reporting week.

RBI slaps ₹1-cr penalty on SBI for lapses

PRESS TRUST OF INDIA
Mumbai, November 26

THE RESERVE BANK of India on Friday said it has imposed a penalty of ₹1 crore on State Bank of India (SBI) for deficiencies in regulatory compliance.

The penalty has been imposed by an order dated November 16, 2021, the RBI said in a statement.

According to the central bank, the statutory inspections for supervisory evaluation

(ISE) of SBI was conducted with reference to its financial positions as on March 31, 2018 and March 31, 2019.

The examination of the risk assessment reports, inspection report and all-related correspondence pertaining to the same revealed contravention of a provision of the Banking Regulation Act "to the extent the bank held shares in borrower companies, as pledgee of an amount exceeding 30% of paid-up share capital of those companies".

A show cause notice was issued to the

bank. After considering the bank's reply to the notice, oral submissions, and additional submissions made by the bank, the RBI said it came to the conclusion that the charge of contravention of the provisions of the Act was substantiated and warranted imposition of monetary penalty.

The RBI said the penalty is based on deficiencies in regulatory compliance and was not intended to pronounce upon the validity of any transaction or agreement entered into by SBI with its customers.

Tega Industries sets price band at ₹443-453 for ₹ 619-cr IPO

FE BUREAU
Mumbai, November 26

TEGA INDUSTRIES, a manufacturer of consumables for the mining industry, on Friday said it has fixed a price band of ₹443-453 a share for its initial public offering (IPO). The issue will on December 1 and close on December 3. The company proposes to raise ₹619.23 crore at the upper end of the price band. The anchor book is expected to open on November 30 and the company will list on the exchanges on December 13.

Tega's maiden public offer is entirely an offer for sale (OFS) of 1.37 crore equity shares by its existing shareholders and promoters.

Promoters Madan Mohan Mohanka and Manish Mohanka will offload a part of their stake via the OFS, and Wagner – an affiliate of PE firm TA Associates – will exit the company through the share sale.

Currently, the promoters hold an 83.21% stake, while Wagner holds 14.62%. Post-Issue, the promoters' stake will come down to 77.21%, the manage-

Bank of Baroda raises ₹1,997 cr via Basel III bonds

PRESS TRUST OF INDIA
New Delhi, November 26

STATE-OWNED BANK of Baroda (BoB) on Friday said it has raised ₹1,997 crore by issuing Basel III-compliant bonds.

The bank had come out with a ₹2,000-crore issue of additional tier-I bonds on November 24.

"The bank has received a total bid amount of ₹5,308 crore, out of which the issuance was finalised for ₹1,997 crore at 7.95% (per annum)," BoB said in a regulatory filing.

The bank said it issued a total of 1,997 bonds of ₹1 crore each under this issue to a total of 21 allottees.

To comply with Basel-III Capital Regulations, banks need to improve and strengthen their capital planning processes.

These norms are being implemented to mitigate concerns on potential stresses on asset quality and consequential impact on performance and profitability of banks.

Stock of Bank of Baroda traded 3.33% lower at ₹89.90 apiece on the BSE.

Subscription opens Monday, issue price of gold bond fixed at ₹4,791 per gm

PRESS TRUST OF INDIA
Mumbai, November 26

THE ISSUE PRICE for Sovereign Gold Bond Scheme 2021-22, which will open for subscription for five days from November 29, has been fixed at ₹4,791 per gram of gold, the Reserve Bank of India said on Friday.

The Sovereign Gold Bond Scheme 2021-22 - Series VIII will be open for subscription from November 29 till December 3, 2021.

"The nominal value of the bond... works out to ₹4,791 per gram of gold," the RBI said.

Government of India, in consultation with the RBI, has also decided to offer a discount of ₹50 per gram on the nominal value to those investors applying online and the payment against the application is made through digital mode. "For such investors, the issue price of Gold Bond will be ₹4,741

The price of bond is fixed in Indian rupees on the basis of simple average of closing price of gold of 999 purity for the last three working days of the week preceding the subscription period

per gram of gold," it added. The issue price of Series VII was ₹4,761 per gram of gold.

The RBI will issue the bonds on behalf of the Government of India. The bonds will be sold through banks (except Small Finance Banks and Payment Banks), Stock Holding Corporation of India (SHCIL), designated

post offices, and recognised stock exchanges viz., National Stock Exchange of India and Bombay Stock Exchange.

The scheme was launched in November 2015 with an objective to reduce the demand for physical gold and shift a part of the domestic savings – used for the purchase of gold – into financial savings.

Price of bond is fixed in Indian rupees on the basis of simple average of closing price of gold of 999 purity, published by the India Bullion and Jewellers Association for the last three working days of the week preceding the subscription period.

The bonds will be denominated in multiples of gram (s) of gold with a basic unit of 1 gram. The tenor of the bond will be for a period of eight years with exit option after fifth year to be exercised on the next interest payment dates.

CLASSIC vs CLASSIC

We ride the Classic, and the decked up Classic

The price gap between the two bikes here is ₹18,500

The naked Classic Chrome

VIKRAM CHAUDHARY

THERE ARE BROADLY two kinds of two-wheeler users in India: the commuter buyer who needs a two-wheeler to travel from point A to B (the choice here usually is 100-150cc engine capacity), and the aspirational buyer who has an intense desire to own a two-wheeler not just to commute but also to flaunt or simply feel good (150cc and above).

So, how do you flaunt? One of the ways is by accessorising your two-wheeler. To service the latter category of buyers, companies like Royal Enfield offer an array of accessories. We ride the Classic Chrome fitted with some of the company's Genuine Motorcycle Accessories (GMA).

The Classic Chrome, priced ₹2,15,118 (ex-showroom), is a striking motorcycle—it reflects the look of British motorcycles from the 1950s, and is available in dual-tone colour tanks in two colourways (chrome red and chrome bronze).

But you can deck it up, and make it look even more striking by spending less than 10% of its sticker price. We ride a unit fitted with a silver sump guard (₹2,750), rear rack (₹2,750), foot pegs (₹2,500), Airfly engine guard (₹4,250) and black touring mirrors (₹6,250), totalling ₹18,500.

First, the reaction of passers-by: The decked up Classic Chrome turns heads wherever you ride it. Especially the Airfly engine guard and the black touring mirrors help it stand out. But in addition to the

The accessorised Classic Chrome

looks, are there any changes to the motorcycle in terms of riding?

Silver sump guard: It helps protect the engine from pebbles etc that may deflect from the front tyre while riding off the road. It may not be a must-have accessory but is a desired one; it also gives the Classic Chrome a distinctive appearance.

Rear rack: It's a very functional accessory; in case you go on a long road trip, it can be used to tie the luggage (like a bag).

Foot-pegs: These make long-distance riding slightly more comfortable. As compared to the foot-pegs you get with the naked Classic Chrome, these have a bigger surface area and there also absorb vibrations much better.

Airfly engine guard: It's not a must-have accessory; riding in narrow lanes that exist in Indian small towns and even metro cities, it makes the motorcycle slightly more difficult to manoeuvre.

Black touring mirrors: While these have a distinctive appearance, you cannot adjust these once they have been fitted onto the Classic Chrome. It's an accessory you can even ignore, because as compared to stock rear-view mirrors, these show you slightly lesser rearward area.

These aren't all. The Classic Chrome can be fitted with accessories costing up to ₹40,000 in total (including pannier, touring screen, passenger backrest, touring seats and alloy wheels).

Should you finance your two-wheeler?

While credit participation is relatively low in the entry-level two-wheeler segment as compared to four-wheelers, taking a loan can be a beneficial

SUMIT CHHAZED

TWO-WHEELERS ARE the most popular mode of personal transportation chosen by the common man in India. Reasons are affordability, easy navigation through traffic, low cost of maintenance and servicing. According to certain reports, the average time spent by a person on a two-wheeler to reach a destination is almost one-third that of a four-wheeler (in our congested metro cities).

There are broadly two kinds of two-wheeler users in India: the commuter buyer who needs a two-wheeler to travel from point A to B (the choice here usually is 100-150cc engine capacity), and the aspirational buyer who has an intense desire to own a two-wheeler not just to commute but also to flaunt or simply feel good (150cc and above).

Due to the pandemic and social distancing norms, a large section of the population has shifted to two-wheelers from public transport. But while buying two-wheelers, new or old, credit participation is relatively low as compared to four-

wheelers. Should you finance it or should you pay the entire price upfront? Here we discuss that choosing an EMI or taking a loan is like a cherry on top if you have been planning to buy a dream two-wheeler. The reasons are:

Purchasing power increases: Since the full payment need not be made at the time of buying the two-wheeler, the purchasing power of the buyer increases, giving her an opportunity to choose the best bike in the market as she has additional money to spend to be paid in instalments.

Acts as a financial relief: Paying the full amount upfront can literally burn a hole in your pocket as your savings may be used up. Unforeseen contingencies can happen at any time. On the contrary, opting for low interest rates and

EMI can save you some money that could be utilised during emergency.

Low interest rates: Banks and NBFCs (non-banking financial companies) are competing against each other to offer reasonable interest rates. Rates may start from 7%, going up to 18% and above, depending on the tenure you choose (the ideal tenure is two years). One must keep in mind that two-wheeler interest rates are comparatively lower than personal loans.

Inculcates a habit of savings: Since you

ILLUSTRATION: ROHINIT PHORE

Due to the pandemic and social distancing norms, a large section of the population has shifted to two-wheelers from public transport

know you have taken a loan, you would be required to keep a portion of your salary towards meeting EMIs, thus inculcating a habit of savings; these savings can be invested in areas like stocks.

Instant loan approval: Waiting in queues to get a loan approved and the tiring process of document submission are reasons why people hesitate to take loans for vehicles. But there are many start-ups and banks that accept applications and documents online, making it easier and stress-free for buyers. If you meet the eligibility criteria set by banks and NBFCs, plus a good credit profile, your loan can be disbursed within a few hours from the time of application.

Tax benefits: If you are a self-employed person, you can even enjoy tax benefits in the form of tax-deductible interest. Also, buying a two-wheeler in the name of your company can even save you money on fuel, insurance and maintenance as these can be shown as deductibles from the profit of the company.

Has the Covid-19 pandemic really led to a bicycling boom in India?

Lack of a safe bicycling road infrastructure and the absence of bicycling culture are the main deterrents to mass uptake of bicycling

PANKAJ M MUNJAL

COVID-19 HAS caused a significant dent in the economy. Many businesses were forced to close, while others suffered significant losses. The only industry that perhaps grew was the bicycle industry. According to the All India Cycle Manufacturers' Association (AICMA), bicycle sales increased by more than 25% in June of last year when compared to the same month in 2019. Owing to increased safety concerns about public transportation and an increase in movement with the gradual reopening of the economy, a large number of people, it appears, opted for what is one of the most basic modes of transportation, i.e. bicycles.

In FY21, India's total vehicle registrations were around 1.5 crore units. Although Mumbai is the most car-congested city with a density of 510 private cars every kilometre, Delhi has a whopping 1 crore and more vehicles on its roads. It is no coincidence that Delhi was the world's most polluted capital for the third straight year in 2020. Traffic congestion in our four big cities has now reached pre-pandemic levels, according to a report by the Tom-Tom Traffic Index.

However, Covid-19 has led to a surge in people using bicycles for short to medium distance travels; restricted access to gyms and apprehensions about working out in parks and other open spaces has apparently pushed more people to take up fitness bicycling. It's true that Covid-19 has ushered in a global movement for bicycling and India is slowly catching up to that trend, with cycling to work, for leisure and for fitness becoming more acceptable than before. In June last year, there was a 25% rise in countrywide sales of bicycles compared to average monthly sales in the pre-Covid-19 period. Both normal road bikes and premium fitness segment bicycles have seen a surge in sales. An Institute for Transportation and Development Policy study has forecast that, post lockdown, bicycling is set to increase by 50-60% in cities across the country.

As lockdowns ease and the humble bicycle reclaims its rightful space on Indian roads, it offers a one-shot cure for three of the vexed issues confronting our policymakers: traffic congestion, pollution and health of our people. No less than the Ministry of Housing and Urban Affairs recently issued a communiqué stating that bicycling for short distances can yield an annual benefit of ₹1.8 trillion to the Indian economy while potentially increasing personal fuel savings by over ₹27 billion.

Lack of safe bicycling road infrastructure and absence of bicycling culture are the main deterrents to the mass uptake of bicycling. While we are still a long way from making bicycling one of the main modes of urban transport, the pandemic has served to mainstream bicycling amongst urban youth. This much-needed respect must lay ground for a major bicycling revolution in India. Since the relaxing of lockdown restrictions, the pollution levels in many of our metros seem to be going back to the pre-lockdown levels, with Mumbai seeing a 60% jump in NO₂. Promoting bicycling as a mode of transport can prevent this from happening.

BHARTI AIRTEL RATING: BUY

Quantum of tariff hike a positive surprise

India mobile estimates up 8-15%; Ebitda CAGR of 21% is expected over FY22-24e; TP up to ₹925 from ₹860; 'Buy' retained

BHARTI'S 20-25% HIKE in the prepaid tariffs reflects that its focus is moving towards boosting realisations as against gaining market share aggressively. We believe Reliance Jio may hike tariffs too as Bharti's 20-50% premium offers significant headroom for Reliance Jio to raise tariffs. We raise our India mobile estimates by 8-15% to factor in tariff hike and expect Bharti to deliver 21% Consolidated Ebitda CAGR in FY22-24. Maintain **Buy** with a revised PT of ₹925.

Bharti raises prepaid tariffs by 20-25%: Bharti Airtel announced a 20-25% hike in prepaid tariffs effective from 26th November. After the sharp 60% increase in minimum prepaid voice tariffs in July-21, Bharti has raised these tariffs by another 25% to ₹99 for a 28-day plan. Tariffs in the prepaid data segment have been revised by 20% across the board.

Magnitude of tariff hike surprises positively: Prepaid segment forms about 85% of Bharti Airtel's India mobile revenues and a sharp 20-25% hike in this segment will provide a meaningful boost to Bharti's overall estimates. While the 20% hike has surprised positively vs. our

expectation of 7% hike in Q4FY22, we believe another tariff hike may be unlikely in Q4FY23. Consequently, we raise our ARPU estimates by 8-10% and expect Bharti to have Arpu of ₹201 by FY24.

Why has Bharti raised tariffs now? We believe Bharti's focus is slowly moving towards boosting realisations versus gaining market share aggressively. We had highlighted this change in intent after its segmented tariff hikes in July. We also note that the company's subscriber churn in Q2FY22 was lower than expected despite sharp tariff hikes in the prepaid voice segment. This may have

boosted its confidence on its ability to pass on tariff hikes. That said, post this hike, Bharti's premium to Jio's prepaid data tariffs has increased from 0-25% to 20-50% which is fairly high.

Will Reliance Jio raise tariffs? We believe so. Post current tariff hikes, the cheapest JioPhone plan is at a 37% discount to Bharti's cheapest voice plan, making JioPhones more attractive to featurephone users. This may drive new subscriber additions for Reliance Jio. On the prepaid data side, Bharti's 20-50% premium to Jio offers significant headroom for Reliance Jio to raise tariffs. We

Expect Ebitda growth of 21% CAGR over FY22-24E

do note that Reliance may have to offset this increase in smartphone tariffs by adequate cuts in JioPhone Next's pricing.

Raise estimates/PT: We raise our India mobile revenue/Ebitda forecast by 8-15% on higher ARPU estimates. Over FY22-24, we expect Bharti to deliver 17%/21% CAGR in consol. revenue/Ebitda, assuming no further tariff hikes till Q4FY24. Despite our projection of \$11-bn capex including \$2 bn for 5G spectrum, we expect Bharti to deliver \$5.3 bn of cumulative FCF over FY23-24. We raise our PT to ₹925 which implies a consolidated EV/Ebitda of 8.8x, largely in line with Bharti's 3-yr average of 8.6x. Maintain **Buy**.

JEFFERIES

TORRENT PHARMA RATING: BUY

Firm has advantage on RM pressures

FY22/23/24e EPS down ~10-11%; TP reduced to ₹3,202; upgraded to 'Buy' rating

THERE ARE RISING market concerns on the impact of the rise in raw material prices and limited pricing power, particularly in the generics segment, on pharma companies' earnings. In this regard, we believe Torrent Pharma (TRP) is better placed vs. peers as ~60% of the company's revenues come from branded

generics, where the company can undertake price increases. Raw materials as a percentage of sales are currently low at below 30% and the dependence on China is ~25%, according to management.

We expect sales growth in the branded generics businesses in India and Brazil to sustain in low double-digit supported by

price increases. In India, TRP faces less volatility as the dependence on COVID-19 and seasonal products is low vs. peers. In fact, the improvement in patient footfalls could drive the demand for chronic segments that account for ~60% of sales. TRP has demonstrated strong execution in India, achieving significant improve-

Field force's productivity

ment in field force productivity and much lower attrition than the industry. We expect TRP to expand its field force and enter into new segments in due course to sustain growth ahead of the market.

The generics markets in the US and Germany remain challenging, with no visibility on the clearance of manufacturing plants by the USFDA. However, we expect a modest revival in the sales from the current low base.

Factoring in the impact of lower sales in the US and the impact of higher costs, we reduce our earnings estimates for FY22F/23F/24F by ~10-11%. We value TRP at 17.5x (unchanged) one-year forward Ebitda to arrive at our lower TP of ₹3,202. The target multiple is in line with the current trading multiple of 17.3x one-year forward EV/Ebitda, on consensus estimates. We believe the valuation multiple is backed by strong cash flows, higher dependence on branded businesses and capital allocation discipline. TRP is currently trading at FCF yields of 3.4%/4.1%/4.7% on FY22F/23F/24F estimates. Our new TP presents an upside of 16% from current levels. Upgrade to **Buy**.

Key risks: slower than estimated growth in India, adverse regulatory development, and adverse currency movements.

GE expands debt buyback by \$2 bn on strong demand

GENERAL ELECTRIC SAID it now expects to buy back \$25 billion of bonds, expanding one of the biggest debt repurchases ever, after finding strong demand from investors to sell the securities. Investors have so far offered to sell about \$33 billion of bonds to the company, GE said in a statement. GE had sought to buy back as much as \$23 billion of the securities in a process known as a tender offer. "The upsized offer may indicate GE's comfort with cash flow in the important fourth quarter and is consistent with its deleveraging plans," said Joel Levington, credit analyst for Bloomberg Intelligence.

Mizuho's top execs to quit over system failures

MIZUHO FINANCIAL GROUP said on Friday its chief, chairman and three other executives will resign as financial authorities reprimanded Japan's No. 3 lender for a series of technical system failures. The Financial Services Agency (FSA), the country's banking regulator, said in a statement the failures had "undermined the credibility of Japan's bank settlement system".

China brings e-cigarettes under monopoly law

CHINA AMENDED ITS tobacco monopoly law on Friday to include e-cigarettes, stepping up regulation of the fast-growing vaping industry in the world's largest tobacco market. The cabinet order, published on the Chinese government's website and signed off by Premier Li Keqiang, comes into effect immediately. A number of Chinese e-cigarette companies have been set up in recent years to tap into domestic sales potential.

Nato chief warns Russia on troop build-up

NATO SECRETARY-GENERAL Jens Stoltenberg said on Friday that Russia has amassed heavy military equipment, tanks and combat-ready troops near Ukraine, warning that any use of force against Ukraine would be costly for Moscow. Stoltenberg also said he expected the new German federal government to spend more on its armed forces and welcomed its decision to continue hosting Western nuclear weapons in Germany.

COVID BATTLE

World takes action as new variant emerges in southern Africa

ASSOCIATED PRESS
Brussels, November 26

A SLEW OF nations moved to stop air travel from southern Africa on Friday, and stocks plunged in Asia and Europe in reaction to news of a new, potentially more transmissible Covid-19 variant.

"The last thing we need is to bring in a new variant that will cause even more problems," said German Health Minister Jens Spahn, amid a massive spike in cases in the 27-nation European Union.

Within a few days of the discovery of the new variant, it has already impacted on a jittery society that is sensitive to bad Covid-19 news, with deaths around the globe standing at well over 5 million.

There are fears that the new variant could be even more contagious than the current predominant one and could bypass the effectiveness of the vaccination campaigns.

"Early indications show this variant may be more transmissible than the delta variant and current vaccines may be less effective against it," British Health Secretary Sajid Javid told lawmakers. "We must move quickly and at the earliest possible moment," he said.

Israel, one of the world's most vaccinated countries, announced Friday that it has detected the country's first case of the new variant in a traveller who returned from

Malawi. The traveler and two other suspected cases have been placed in isolation. It said all three are vaccinated but that it is currently looking into their exact vaccination status. The new variant immediately infected stock markets around the world. Major indexes fell in Europe and Asia and Dow Jones futures dipped 800 points ahead of the market opening in the US.

"Investors are likely to shoot first and ask questions later until more is known," said Jeffrey Halley of foreign exchange bro-

ker Oanda.

Oil prices plunged, with US crude off 6.7% at \$73.22 per barrel and the international Brent benchmark off 5.6% at \$77.64, both unusually large moves for a single day. The pandemic caused oil prices to plunge during the initial outbreak of the pandemic in 2020 because travel restrictions reduced demand for fuel.

Airlines shares were hammered, with Lufthansa off 12.4%, IAG, parent of British Airways and Iberia, off 14.4%, Air France-KLM down 8.9% and easyJet falling 10.9%. The World Health Organisation cautioned not to jump to conclusions too fast. Speaking before the EU announcement, Dr. Michael Ryan, the head of emergencies at the WHO said that "it's really important that there are no knee-jerk responses."

"We've seen in the past, the minute there's any kind of mention of any kind of variation and everyone is closing borders and restricting travel. It's really important that we remain open, and stay focused," Ryan said.

It quickly fell on deaf ears.

The UK announced that it was banning flights from South Africa and five other southern African countries effective at noon on Friday, and that anyone who had recently arrived from those countries would be asked to take a coronavirus test.

WHO meets to designate new variant, cautions against travel measures

STEPHANIE NEBEHAY
Geneva, November 26

THE WORLD HEALTH Organisation (WHO) on Friday cautioned countries against hastily imposing travel restrictions linked to the new B.1.1.529 variant of Covid-19, saying they should take a "risk-based and scientific approach".

A closed-door experts' meeting from Geneva, convened by WHO, began at midday (1100 GMT) to assess the new Covid-19 variant B.1.1.529 and to designate it as either a variant of interest or a variant of concern, spokesperson Christian Lindmeier said.

Global authorities reacted with alarm on Friday to a new coronavirus variant detected in South Africa, with the EU and Britain among those tightening border controls as scientists sought to find out if the mutation was vaccine-resistant.

"At this point, implementing travel measures is being cautioned against," Lindmeier told a UN briefing in Geneva. "The WHO recommends that countries continue to apply a risk-based and scientific approach when implementing travel measures." It would take several weeks to determine the variant's transmissibility and the effectiveness of vaccines and therapeutics against it, he said, noting that 100 sequences of the variant have been reported so far.

People should continue to wear masks whenever possible, avoid large gatherings,

ventilate rooms and maintain hand hygiene, Lindmeier added.

"We don't know very much about this yet. What we do know is that this variant has a large number of mutations. And the concern is when you have so many mutations it can have an impact on how the virus behaves," said Maria van Kerkhove, an epidemiologist and WHO technical lead on Covid-19.

"This is one to watch, I would say we have concern. But I think you would want us to have concern," she told viewers of an event on social media on Thursday.

Van Kerkhove said that it was good that variants were being detected, adding: "It means that we have a system in place."

Fauci says US must study data before deciding on travel ban

TOP US INFECTIOUS disease official Dr Anthony Fauci said on Friday that a ban on flights from southern Africa was a possibility and the United States was rushing to gather data on the new Covid-19 variant.

No decision to halt flights had yet been made, he said.

Global authorities have reacted with alarm to the new variant, detected in South Africa, with the European Union and Britain among those tightening border controls as scientists seek to find out if the mutation was vaccine-resistant.

The World Health Organisation (WHO), however, has cautioned against hasty measures and South Africa said a British ban on flights seemed rushed.

Cryptocurrencies tumble as Covid variant shakes global markets

TOM WILSON
London, November 26

BITCOIN TUMBLED OVER 9% on Friday, dragging smaller tokens down, after the discovery of a new, potentially vaccine-resistant coronavirus variant saw investors dump riskier assets for the perceived safety of bonds, the yen and the dollar.

Bitcoin, the largest digital currency, fell as much as 9.2% to \$53,551, its lowest since October 10. The second largest cryptocurrency ether fell over 13% to its lowest in a month as investors ditched cryptocurrencies.

Bitcoin, whose 13-year life has been peppered by bouts of extreme volatility, was on track for its biggest one-day drop since September 20. It has slumped by more than a fifth since hitting a record high of almost \$70,000 earlier this month.

Scientists said the coronavirus vari-

ant, detected in South Africa, Botswana and Hong Kong, has an unusual combination of mutations and may be able to evade immune responses or make it more transmissible.

"The spread of (the variant), especially to other countries, could without investor appetite further," said Yuya Hasegawa at Tokyo-based exchange Bitbank. "BTC's upside will likely be limited and the mar-

ket should brace for further loss." Bitcoin hit an all-time high of \$69,000 earlier this month as more large investors embraced cryptocurrencies, with many drawn to its purported inflation-resistant qualities.

Others have piled into the digital token on the promise of quick gains, a draw that has been heightened by record low or negative interest rates. Yet bitcoin's volatility has lingered, drawing questions over its suitability as a stable store of value.

Ether was last at \$3,924. It is down almost 20% from its record high hit on November 10.

Our pill cuts hospitalisation, death risk by 30%, claims Merck

MERCK SAID ON Friday its experimental Covid-19 pill reduced the risk of hospitalisation and death by 30% in a study, according to data from all the patients enrolled in a late-stage study.

The company said the data on the drug molnupiravir, developed with Ridgeback Biotherapeutics, had been submitted to the US Food and Drug Administration ahead of a meeting of its expert advisers on Tuesday.

A planned interim analysis of the data last month showed that 7.3% of those given molnupiravir twice a day for five days were hospitalised and none had died by 29 days after the treatment. That compared with a hospitalisation rate of 14.1% for placebo patients.

Tesla withdraws state funding application for German battery plant

REUTERS
Berlin, November 26

TESLA HAS WITHDRAWN its application for state funding for its planned battery factory near Berlin, the electric vehicle maker said on Friday, adding that construction plans were unchanged.

The European Union in January approved a plan that included giving state aid to Tesla, BMW and others to support production of electric vehicle batteries and help the bloc to reduce imports from industry leader China. Tesla was expected to receive 1.14 billion euros (\$1.28 billion) in EU funding for its battery plant in Grunheide, Brandenburg under the plan, with a final decision likely by the end of the year.

The US carmaker did not say why it had

\$188m upgrade for China plant

TESLA PLANS TO invest as much as \$188 million in its Shanghai plant to upgrade equipment as the factory gets closer to exhausting its current capacity, according to people familiar with the matter. The facility, which broke ground in January 2019, is expected to reach the limit of its production capacity this year, the people said, asking not to be identified as the details are confidential.

withdrawn its application for funding. The company is itself investing 5 billion euros in the battery plant, according to German economy ministry estimates. Meanwhile, construction of a car production site alongside the battery plant, which Tesla has begun building under pre-approval permits while it awaits final approval from the regional government, has made good progress in the last few weeks, a spokesperson for the federal economy ministry said.

"Tesla has informed the Federal Ministry of Economics and the Brandenburg Ministry of Economics... it is withdrawing its IPCEI application for state funding for the battery factory in Grünheide," a Tesla spokesperson said, referring to European subsidies allocated to so-called 'Important Projects of Common European Interest'.

Italy takes in Nat Geo's green-eyed 'Afghan Girl'

REUTERS

ITALY HAS given safe haven to Sharbat Gula, the green-eyed 'Afghan Girl' whose 1985 photo in National Geographic became a symbol of her country's wars, Prime Minister Mario Draghi's office said on Thursday.

The government intervened after Gula asked for help to leave Afghanistan following the Taliban takeover of the country in August, a statement said, adding that her arrival was part of a broader programme to evacuate and integrate Afghan citizens. US photographer Steve McCurry took the picture of Gula when she was a youngster, living in a refugee camp on the Pakistan-Afghan border.

Google proposes new commitments for its user-tracking cookies

REUTERS
London, November 26

BRITAIN'S COMPETITION REGULATOR said on Friday it had secured improved commitments from Alphabet's Google on changes to user-tracking cookies in its browser, including the US tech giant extending the time any pledges would last to six years.

The Competition and Markets Authority (CMA) has been investigating Google's plan to cut support for some cookies in Chrome because it is concerned the move could impede competition in digital advertising.

Google proposed making changes to its plan, which is called "privacy sandbox", in June, including allowing the CMA an oversight role. Google has said the commitments, if accepted, will apply globally.

The CMA said Google had made new pledges to address some remaining concerns, including offering commitments around reducing access to IP addresses and clarifying internal limits on the data that it could use.

CMA Chief Executive Andrea Coscelli said: "We have always been clear that Google's efforts to protect users privacy cannot come at the cost of reduced competition."

Thanksgiving traditions return to US: Football, family & parades

AMERICANS FLOCKED TO parades, packed football stadiums and gathered more freely for family feasts on Thursday, grateful to celebrate Thanksgiving Day traditions again after the pandemic kept many at home last year.

The holiday dates to the early 17th century, when Pilgrims from Europe and Native Americans gathered to share the autumn bounty - a celebration of goodwill before the genocide that was to come. Nowadays, the approach of the long holiday weekend typically ignites a frenzy of travel as scattered families come together for holiday meals.

With Covid-19 deaths and infections soaring last year, many people shared turkey dinners over Zoom. Now that vaccines have

Performers at the 95th Macy's Thanksgiving Day Parade in Manhattan on Friday

made the pandemic more manageable, an estimated 53.4 million people were expected to travel for Thanksgiving, up 13% from 2020, according to the American Automobile Association.

Air traffic rebounded strongly, with US officers screening 2.31

million people at travel checkpoints on Wednesday, representing 88% of the volume screened on the same day in 2019. It was the highest checkpoint volume since the pandemic low of 87,534 set on April 13, 2020, Transportation Security Administration spokesperson Lisa Farbstein wrote on Twitter. President Joe Biden declared the country was "back," phoning into NBC television's coverage of the 95th Macy's Thanksgiving Day Parade in New York City.

"My message is after two years, you're back. America's back," Biden said before visiting a Coast Guard station in Nantucket, Massachusetts, to thank members of the military stationed around the world. "There's nothing we're unable to overcome."

Black Friday 'early birds' find stores less crowded, fewer bargains

RICHA NAIDU & ARRIANA MCLYMORE
Chicago, November 26

BARGAIN HUNTERS VENTURED out in chilly weather to buy Christmas gifts on Black Friday, finding stores less crowded than in years past as major US retailers opened their doors early.

A shift online, Covid fears and less-steep discounts have thinned crowds on the day after the US Thanksgiving holiday which kicks off the year-end shopping season. Many shoppers are also choosing curbside pickup rather than venturing inside.

"What a lot of customers are doing is drive-up, they don't even enter the store. I think that's one of the reasons it looks quiet," Ian Korolenko, 29, a vacuum salesper-

son asked by Target to help out on Black Friday.

"I also think a lot of these stores do their Black Friday deals earlier in the week now, and a lot of them go online now."

Francisco Martinez, 22, a delivery driver, was one of more than 100 people standing outside a Walmart Supercenter in the Kilbourn Park neighborhood of Chicago before 5 a.m. in 20 degree Fahrenheit (-7 degree Celsius) weather.

As people queued, a Walmart worker handed out coupons for items such as Apple AirPods and watches and Gateway laptops.

"I want to get a 65-inch Element TV - it's \$350 off," said Martinez, who was wearing three layers of clothing, adding: "I think I'm going to get it - it's not as crowded

as it used to be a few years ago."

Daniella Rangel, 19, came into work at 2 a.m. to restock and prepare for the morning rush.

As online shopping has taken off, Black Friday crowds have dwindled, particularly in 2020 when people were still unvaccinated and worried about Covid-19.

Walmart, Best Buy and Target this year did not require shoppers who have been vaccinated to wear masks, but some indoor malls kept existing mask requirements.

At the Chicago-area stores Reuters visited, both employees and shoppers generally wore masks. Realtor Kelsey Hupp, 36, for years shopped at the Macy's department store in downtown Chicago on Black Friday. The pandemic did not deter her from keeping up this tradition.

Beijing presses Didi to delist from US over data security fears

CHINESE REGULATORS HAVE pressed top executives of ride hailing giant Didi Global Inc to devise a plan to delist from the New York Stock Exchange due to concerns about data security, two people with knowledge of the matter told Reuters.

China's powerful Cyberspace Administration of China (CAC) has asked the management to take the company off the U.S. bourse due to worries about leakage of sensitive data, said one of the people.

It also wants the ride-hailing giant to promise it would solve the delisting issue within a certain period of time, said the person. The cyberspace regulator said, according to the person, the prerequisite for the relaunch of Didi's ride-hailing and other apps in China is that the company has to agree to delist from New York.

NEW COVID VARIANT

At 10%, oil sees steepest one-day fall since April 20

LAURA SANICOLA
November 26

OIL PRICES PLUNGED more than 10% on Friday, the largest one-day drop since April 2020, as a new COVID-19 variant spooked investors and added to concerns that a supply surplus could swell in the first quarter.

Oil fell with global equities markets on fears the variant could dampen economic growth and fuel demand. Britain and European countries have restricted travel from southern Africa, where the variant was detected.

Brent crude fell \$8.77, or 10.7%, to \$73.45 a barrel by 10:59 a.m. EDT (1459 GMT). US West Texas Intermediate (WTI) crude was down \$9.12, or 11.6%, at \$69.27 a barrel, after Thursday's Thanksgiving holiday in the United States.

Both contracts are heading for their fifth week of losses and their steepest falls in absolute terms since April 2020, when WTI turned nega-

tive for the first time.

Global authorities reacted with alarm on Friday to a new coronavirus variant detected in South Africa, with the European Union and Britain among those tightening border controls as researchers sought to find out if the mutation was vaccine-resistant.

Investors were also watching China's response to the US release of millions of barrels of oil from strategic reserves in coordination with other large consuming nations, part of its bid to cool prices. Such a release is likely to swell supplies in coming months, an OPEC source said, based on findings of a panel of experts that advises ministers of the block.

Prices of tomatoes spurt 142% in November, no immediate relief: Crisil

FE BUREAU
Pune, November 26

TOMATO PRICES HAVE jumped by 142% year-on-year in November and are likely to rise for another 45-50 days, according to Crisil Research.

Karnataka, Andhra Pradesh and Maharashtra are key suppliers of tomato from October to December. However, with standing crops being damaged by excess rains in Karnataka (105% above normal), Andhra Pradesh (40% above normal) and Maharashtra (22% above normal), the supply has fallen.

"Our on-ground interactions indicate that the situation is so grim in Karnataka that tomatoes are being sent from Nashik in Maharashtra. Prices of tomatoes have increased 142% on-year as on November 25 and are expected to remain elevated for the next 45-50 days till the harvest from Madhya Pradesh and Rajasthan reach markets across the country beginning January," said Hetal Gandhi,

director, Crisil Research. She said prices are expected to decline by 30% from the current high levels of around ₹47 per kg in two-three months.

Similarly, onion prices should begin easing in two weeks, Crisil said. "The onion crop, which accounts for 14% of the total vegetables produced in India, has also been affected. Transplanting was delayed in the key growing regions of Maharashtra because of deficit rains in August. That delayed arrivals in October, leading to a 65% increase in prices compared with September, Gandhi said. "Fresh arrivals are expected from the northern states such as Haryana in the next 10-15 days, which should reduce prices across India. However, since 70% of onion production happens in the rabi season, November is the major sowing month and rainfall will be the key monitorable for both arrivals and prices," Gandhi said.

Ex-RBI ED Vadera joins HDFC Bank board

PRESS TRUST OF INDIA
New Delhi, November 26

HDFC BANK ON Friday said its board has approved the appointment of former RBI executive director Lily Vadera as an independent director.

The board of directors of the bank approved the appointment of Lily Vadera as an additional independent director of the bank for a period of five years effective

November 26, 2021, subject to the approval of the shareholders, HDFC Bank said in a regulatory filing.

Vadera, 61, has 33 years of experience in central banking. She retired as executive director from the Reserve Bank of India in October 2020.

As an ED of the RBI, she was in-charge of the Department of Regulation (DoR) where she dealt with the regulatory framework for various

entities in the financial sector, covering all categories of banks and non-banking finance companies.

She also represented RBI and played an important role as a member of the Insolvency Law Committee set up by the Ministry of Corporate Affairs.

Sebi grants recognition to BASL as accreditation agency

SEBI ON FRIDAY said it has granted recognition to BSE Administration and Supervision (BASL) as an accreditation agency. The recognition has been granted for three years with effect from December 1, 2021, according to a release.

The renewal of the recogni-

tion would be subject to satisfactory performance by BASL, it further said.

"Accreditation of investors will allow an added layer of benefits to the accredited investors. BASL has the requisite infrastructure including systems and manpower to

fulfill this responsibility," said Ashishkumar Chauhan, managing director and chief executive officer, BSE.

The framework for accredited investors in the Indian Securities market was introduced in August.

Total	831	100.00%	30,94,000	100.00%	1.03

The details of applications rejected by the Registrar on technical grounds / withdrawal are detailed below:

TECHNICAL REJECTION / WITHDRAWAL	NO. OF APPLICATIONS	NO. OF EQUITY SHARES
Market Maker	Nil	Nil
Retail Individual Investors	41	82,000
Other than Retail Individual Investors	3	12,000
Total	44	94,000

After eliminating Technically Rejected applications, the following table gives the details of Category wise net valid applications:

Category	No. Of Applications	%	No. of Equity Shares Valid	%	Subscription (No. of Times)	Proportionate No. of Equity Shares (Allocated) After Rounding Off
Market Maker	1	0.13%	1,52,000	5.07%	1.00	1,52,000
Retail Individual Investors	760	96.57%	15,20,000	50.67%	1.00	15,20,000

26/11 Mumbai terror case: India asks Pak to expedite trial

PRESS TRUST OF INDIA
New Delhi, November 26

People hold placards at the Gateway of India to mark the 13th anniversary of the 26/11 terror attacks, in Mumbai on Friday

INDIA CANNOT FORGET the wounds of the Mumbai terror attacks, Prime Minister Narendra Modi said on Friday on the 13th anniversary of the carnage even as a senior diplomat of the Pakistani High Commission was summoned and told that Islamabad must ensure expeditious trial in the case.

In a short video released by the ministry of external affairs (MEA) on the 26/11 attacks, Modi also said today's India is combating terrorism with a "new policy and new ways" as he paid tributes to the victims of the

strikes. The MEA said a note verbal was handed over to the Pakistani diplomat, reiterating New Delhi's demand for an expeditious trial in the Mumbai attacks case and asking that country to

abide by its commitment to not allow territories under its control for terrorism against India. "I pay homage to all those who died in the Mumbai attack. Many brave police personnel were also martyred in the strike. I also pay homage to them," Modi said in Hindi in the video posted by the MEA on Twitter.

"India cannot forget the wounds of the Mumbai attack. Today's India is combating terrorism with a new policy and new ways," he said.

In a statement titled "Thirteen years of seeking justice for the victims of 26/11 Mumbai terror attacks", the MEA asserted that the terror attack was "planned, executed and launched" from Pakistani territory. "It is a matter of deep anguish

that even after 13 years of this heinous terror attack, the families of 166 victims from 15 countries across the globe still await closure, with Pakistan showing little sincerity in bringing the perpetrators to justice," it said.

The MEA said India will continue to make every effort to seek justice for the families of the "victims and the martyrs" of the attacks. "The former Prime Minister of Pakistan had gone on record and admitted that the terrorists were sent from Pakistan's soil," the MEA said, in a reference to comments made by former premier Nawaz Sharif.

"We once again call on the government of Pakistan to give up double standards and to expeditiously bring the perpetrators of the horrific attack to justice."

Modi hits out at dynastic parties, says matter of concern to people committed to Constitution

PRESS TRUST OF INDIA
New Delhi, November 26

Prime Minister Narendra Modi addresses a function, as President Ram Nath Kovind (centre) and Vice-President M Venkaiah Naidu look on, to commemorate the Samvidhan Divas at Parliament in New Delhi on Friday

PRIME MINISTER NARENDRA Modi on Friday tore into the Congress and some other opposition parties, saying India is heading towards a kind of crisis in the form of dynastic parties, from Kashmir to Kanyakumari, that are run and controlled by the same family for generations to pose the "biggest threat" to a healthy democracy and a concern to people committed to the Constitution.

As the prime minister targeted the opposition parties over their boycott of the event to commemorate the Constitution day at the Central Hall of Parliament, President Ram Nath Kovind said all MPs, whether representing the ruling party or the opposition, are defenders of the dignity of Parliament and competition should not be confused

with rivalry. A total of 14 opposition parties including the Congress, the TMC and the DMK gave the event a miss.

While President Kovind said there may be differences of opinion but no difference should be so great as to hinder the real purpose of public service, Vice-President M Venkaiah Naidu, who is the Chairman of the Rajya Sabha, stressed that the Constitution requires the country to be a democratic republic and said

legislatures should be guided by dialogue and debate and not be rendered dysfunctional through disruptions. At another Constitution Day event organised by the Supreme Court in the evening, Modi said Constitution is the country's greatest strength to remove obstacles being created by a colonial mindset. He said India's growth story is being disrupted by forces of colonial mindset, including in the name of freedom of expression.

INFORMATION REGARDING 77th ANNUAL GENERAL MEETING OF MCNALLY SAYAJI ENGINEERING LIMITED

This is to inform that the National Company Law Tribunal ("NCLT"), Kolkata Bench, vide its order dated 11th February, 2021 ("Insolvency Commencement Order") admitted the application for initiation of Corporate Insolvency Resolution Process ("CIRP") in Company Petition No. CP (IB) 131/KB/2020 based on the petition filed by ICICI Bank Limited in accordance with Section 7 of the Insolvency and Bankruptcy Code, 2016 ("IBC 2016"/"the Code"). Pursuant to the said order, CA Jitendra Lohia (IP Registration No. IBBI/IPA/P00170/2017-18/10339) was appointed as the Interim Resolution Professional (IRP) to manage the affairs of the Company as per the provisions of the Code.

However, before the principal bench of the National Company Law Appellate Tribunal ("NCLAT") at New Delhi an appeal was also filed against the said order passed by the Hon'ble NCLT, Kolkata Bench. In accordance with the order of the NCLAT no Committee of Creditors ("CoC") has yet been formed. However, in terms of Section 17 of the Code, the powers of the Board of Directors of the Company stand suspended on commencement of the CIRP and the same are being exercised by CA Jitendra Lohia, the IRP. The management of the affairs of the Company has also been vested with Interim Resolution Professional. The company had filed an application before the Registrar of Companies, West Bengal seeking extension of time for holding the Annual general Meeting of the company for the financial year ended 31.03.2021 for a period of three months from the last date on which such Annual General Meeting should have been held. The Registrar of Companies, West Bengal vide its letter dated 06.09.2021 granted such extension of time up to 31.12.2021.

Therefore, in terms of such extension granted by the Registrar of Companies, West Bengal the 77th Annual General Meeting ("AGM") of M/s McNally Sayaji Engineering Limited ("the Company") will be held through Video Conferencing / Other Audio Visual Means ("VC / OAVM") on Thursday, the 23rd day of December, 2021 at 3:00 p.m. IST, in compliance with all the applicable provisions of the Companies Act, 2013 and the Rules made thereunder and the Listing Regulations and circulars dated May 5, 2020 read with circulars dated April 8, 2020, April 13, 2020 and January 13, 2021 (collectively referred to as "MCA Circulars") issued by the Ministry of Corporate Affairs, read with SEBI circular dated 12th May, 2020 and 15th January 2021 to transact the business set out in the Notice calling the AGM.

The necessary information in terms of MCA Circulars, pertaining to the said AGM are furnished below:

- 77th AGM of the Company will be held through VC/OAVM in compliance with applicable provisions of the Act read with MCA Circulars.
- Date and Time of the AGM through VC or OAVM: Thursday, 23rd day of December, 2021 at 3:00 p.m.
- The notice of the AGM along with the Annual Report for the year ended 31.03.2021 will be sent only by electronic mode to those members whose email address is registered with the company/depositors.

The notice of the AGM convening the meeting shall be available at the Company's website at www.mcnallysayaji.com as well as at www.mse.in i.e on the website of Metropolitan Stock Exchange of India Limited the Stock Exchange, where the shares of the Company are listed.

Members who have not registered their E-mail address may update their details with the Depository Participant in case of shares held in electronic form and with the Company's Registrar in case the shares held in physical form, for getting the soft copy of the notice and e-voting instructions along with the User ID and Password.
